James Thorne

Senior Specialist Developer

"I am committed to designing software that simplifies lives rather than complicating them. If you are looking for an asset who views software as a means to achieve peak business efficiency, I am ready to build that solution with you."

Portfolio Highlights

Automated Claims Engine

Designed and implemented automated streams for insurance claims processing at Softsure.

Media Monitoring Suite

Built OCR and virtual cutting systems for processing large-scale printed media.

Professional Experience

Softsure

2017 — Present
